

The Safer Consumer Products regulations framework

1 Candidate Chemical List

- A compilation of potentially harmful chemicals based on 23 Authoritative Lists
- List Changes triggered by:
 - Authoritative list changes
 - Stakeholder petitions
 - DTSC Rulemaking

2 Priority Products

- Selection criteria:
 - Potential for exposure to the Candidate Chemicals
 - Potential for harm to human health or the environment
- Products selected from categories in the Priority Product Work Plan
- DTSC may be petitioned by stakeholders to adopt a Priority Product

3 Alternatives Analysis

- Manufacturers must ask: Is the chemical necessary? Is there a safer alternative?
- Have regrettable substitutes been avoided?
- Manufacturers weigh trade-offs, taking into account ecological, life cycle and economic impacts to produce an Alternatives Analysis (AA) report

4 Regulatory Response

Possible Regulatory Responses:

- Additional information to DTSC
- Additional information for consumers
- Additional safety measures
- Restrictions or prohibitions on sales
- End-of-life product stewardship
- Research funding

Product Prioritization

Children's Foam-Padded Sleeping Products with TDCPP or TCEP flame retardants

- **Adopted**
- Compliance testing completed

Spray Polyurethane Foam Systems with Unreacted MDI

- **Adopted**
- In formal dispute resolution

Paint or Varnish Paint Strippers Containing Methylene Chloride

- **Adopted**
- Alternatives Analysis due 6/19

Laundry Detergents Containing Nonylphenol Ethoxylates (NPEs)

- **Proposed**

Carpets and Rugs with Perfluoroalkyl and Polyfluoroalkyl Substances (PFASs)

- **Proposed**

Zinc in Tires

- Petition received 2018
- Merits review underway

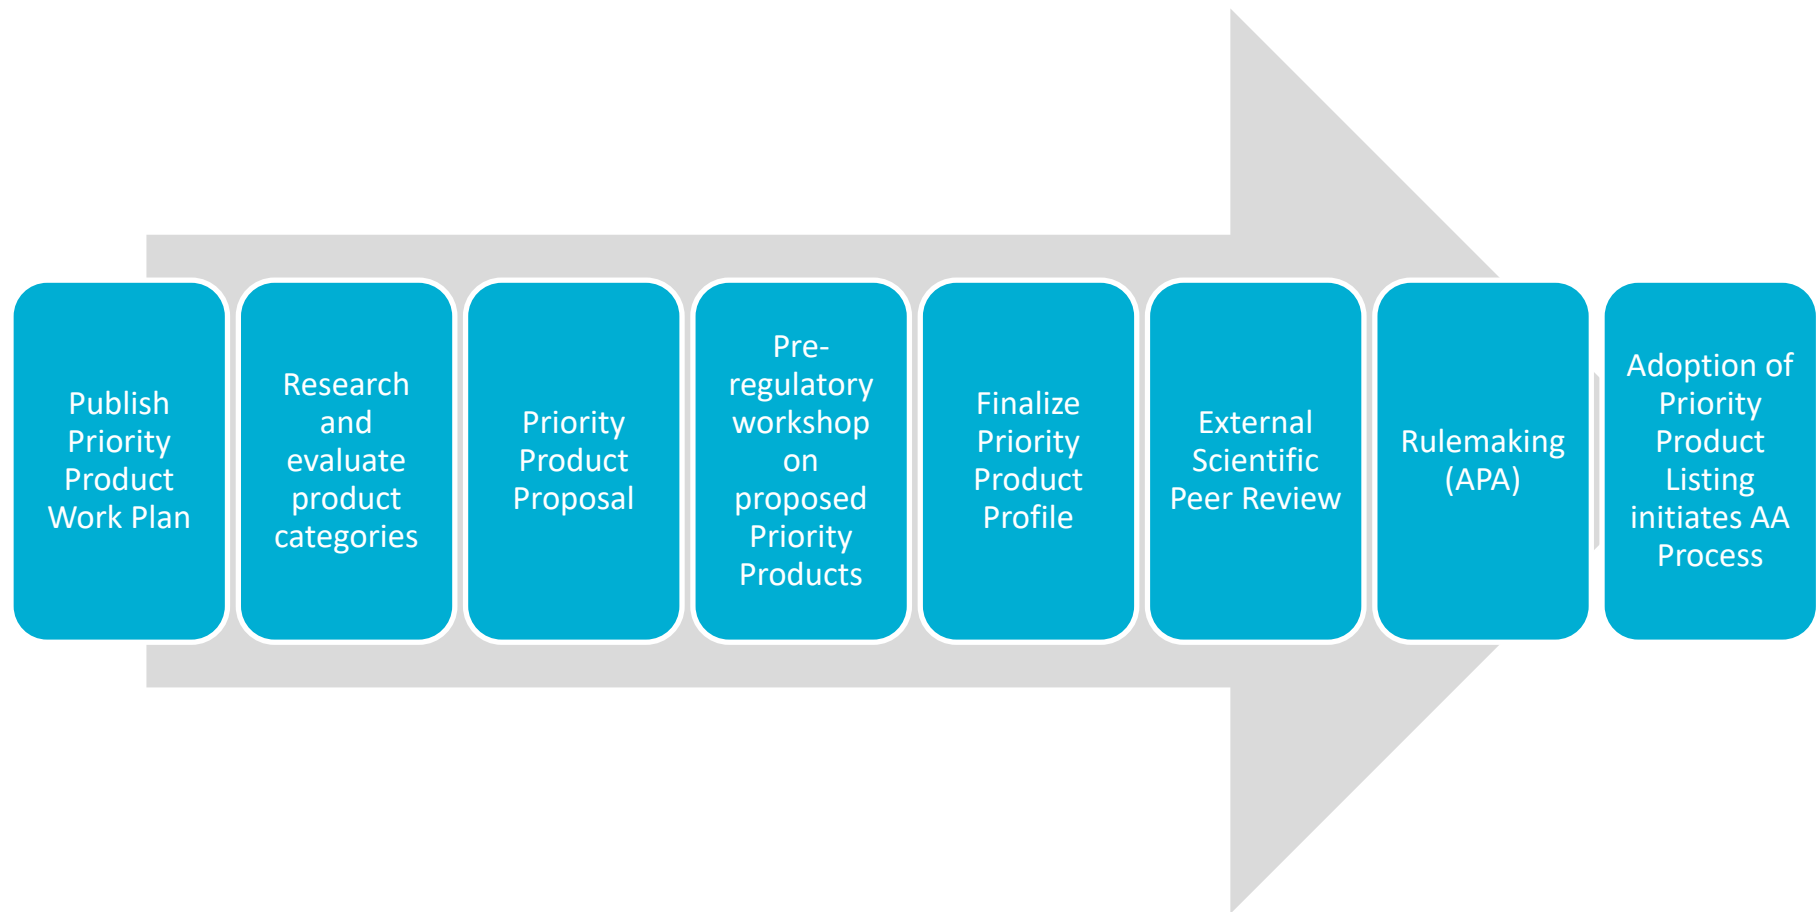

Paint and Strippers and Graffiti Removers Containing 1-Methyl-2-Pyrrolidone (NMP)

- **Proposed**

Nail Products (Pending)

Priority Products Selection Process

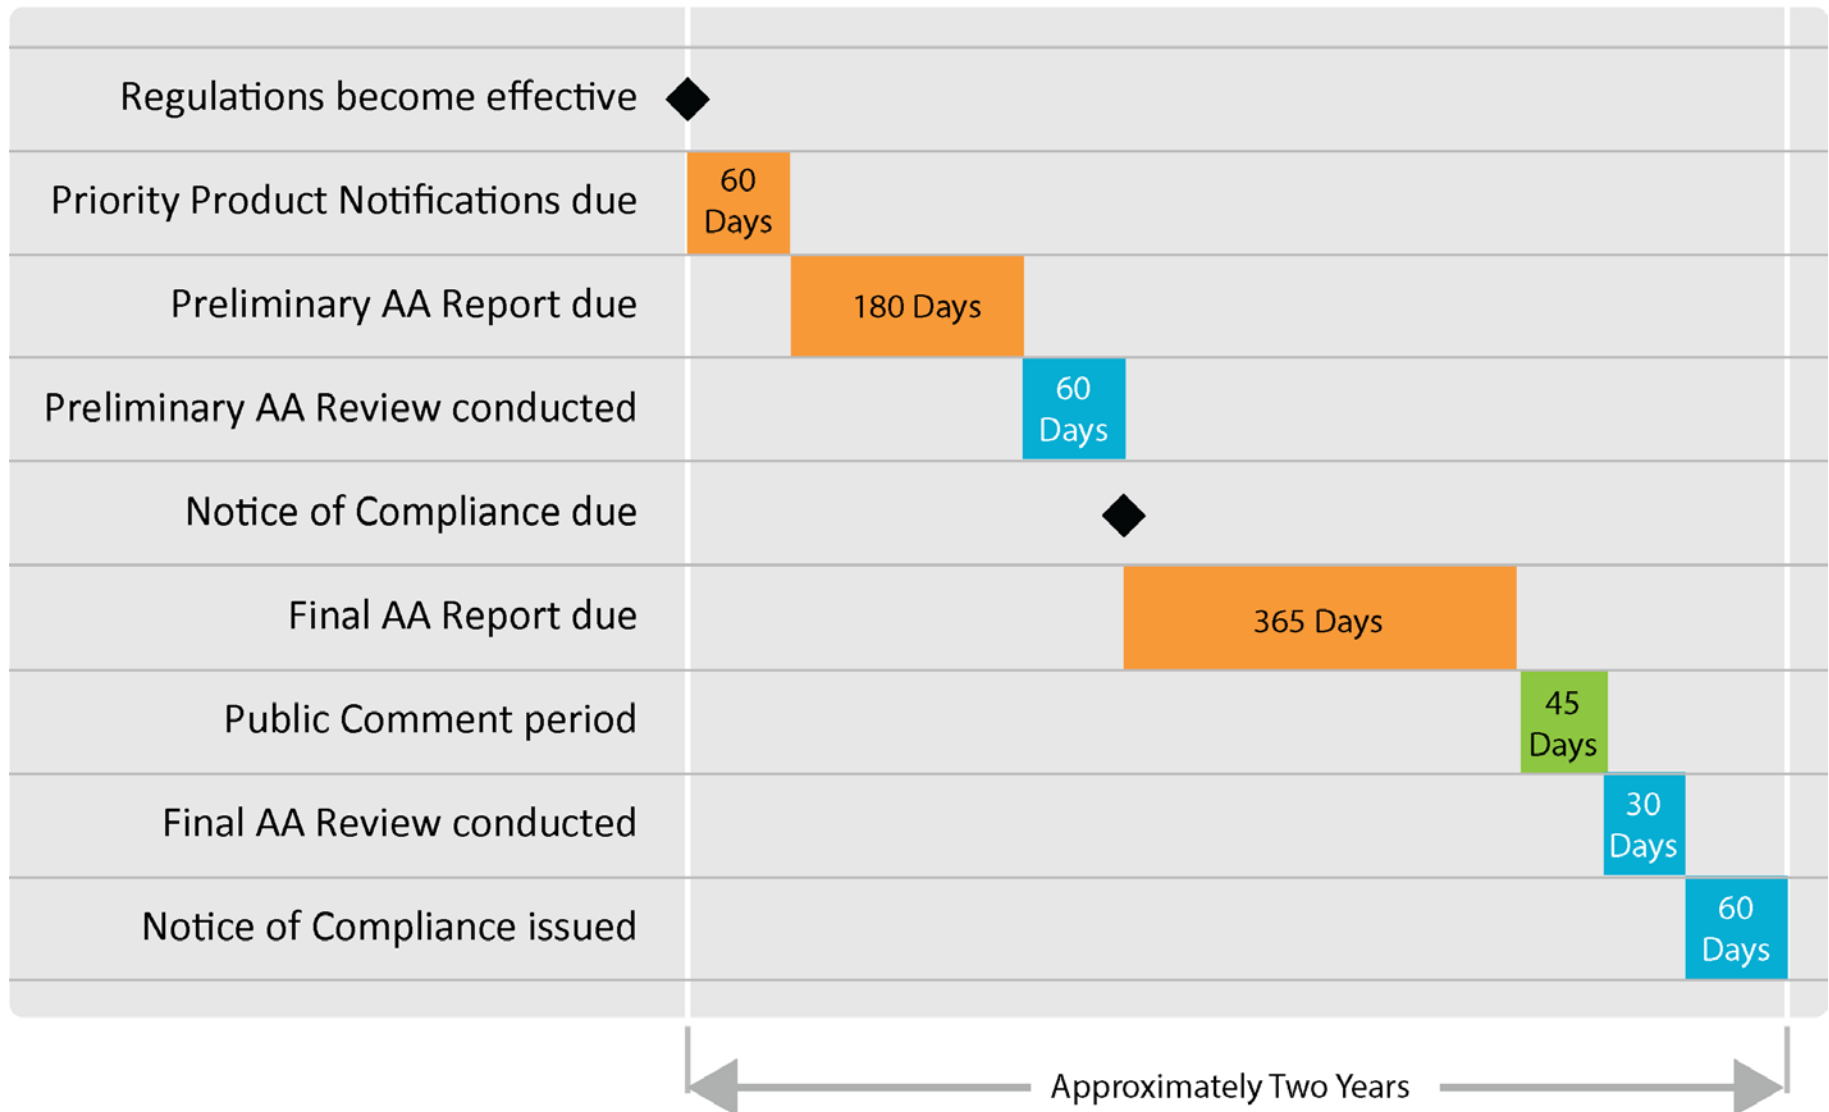

Extensive shareholder engagement throughout.
